A top-down view of a rustic wooden dining table. On the left, a chessboard with a dark wood and light wood checkered pattern is partially visible, with several clear glass chess pieces. To the right of the chessboard, a small, clear glass filled with a golden liquid, likely wine, sits on the table. The table's surface shows the natural grain of the wood. In the bottom right corner, a portion of a chair with a patterned fabric, featuring brown and white geometric shapes, is visible.

MAKE IT YOURS

BEDS

Make your ultimate bedroom retreat a reality with a one-of-a-kind custom upholstered bed or headboard. Our nearly limitless designer options mean you can personalize every detail to create your signature look. Once you’ve chosen your headboard style, select your favorite fabric or leather cover. Define your bed size and choose from four headboard height choices. Then, select a leg style and add an optional molding or nail trim (on select models) if desired. Finish the exposed wood elements of your custom creation with any shade from our standard stain and paint options, metallics, MIY paints, and premium leaf finishes. Personalize your upholstered bed and headboard and make it yours.

① Choose your bed or headboard style and a fabric or leather. Leather styles will have seams. Note: All beds require box springs (shipped with metal bed slats); headboards require Hollywood frame. Refer to the Price List for COM/COL yardages.
