④ Choose your personalized finish.

Select from hundreds of wood finishes — standard stain or paint, metallic paint, MIY paint and premium leaf. Customize your piece even further by adding an optional* embellishment such as highlight striping, sheen level or distressing level.

You can also add optional* Vanguard Performance Top Coat to your piece for premium protection against heat, moisture, household chemicals, and abrasion. It is a high solids catalyzed wood finishing system that works with all Vanguard domestically produced stain and paint finishes to create a durable and transparent top coat perfect for high use furniture and as well as surfaces where tough protection is desired. An antimicrobial agent is also added to protect the surface from the growth of microorganisms. Performance Top Coat is not offered on any “stocked” finishes and is standard on all tinted metal finish options. Normal cleaning and surface maintenance practices should always be followed to care for and extend the life of your wood furniture. Please refer to the care instructions on our website or in the Vanguard Price List. **Optional charges may apply.*
